

Technical drawing illustrating a structural connection detail. The assembly consists of an aluminum receiver (AFK-4) and an anchor (SPCC). Key dimensions and material specifications are as follows:

- Aluminum receiver (AFK-4) (A6063S-T5) Almatite treatment
- Anchor (SPCC) @500
- Non-slip type aluminum greasing AG15-3030-2 Main bar: H=30, P=15 (A6063S-T5) Almatite treatment
- Thicknesses: 7, 3, 20, 6, 30, 41.5, 18, 35, 250
- Material: クッション (塩ビ系ゴム)
